

INFORMATION TECHNOLOGY FOR EUROPEAN ADVANCEMENT

## Introduction Roadmap 3

ITEA 2 Symposium 2008 - Ger van den Broek  
Rotterdam, 21 October 2008

European leadership in Software-intensive Systems and Services. The Future of Embedded and Distributed Software.

# ITEA Roadmap for Software- Intensive Systems and Services

3rd edition, October 2008

**DRAFT**

## ITEA 2 Roadmap 3 A document for all

ITEA 2 Symposium 2007

Roadmap 3 - Introduction

### Vision

*'Europe to maintain leadership in Software-intensive Systems and Services building on key European strengths and industries'*

Solutions / Services

Differentiation Software

Communications

Infrastructure

Real-Time

Infrastructure

### Definition

- **RM3 is:**
  - a structured vision of future uses and services
  - sketching deployment scenarios
  - a description of related key enabling technologies
- **RM3 isn't:**
  - a set of market analysis
  - a succession of yearly work programs

enabling to understand the general evolutions of Software-intensive Systems and Services, identify major roadblocks and position projects

ITEA 2 - 3

## Change of view angle or point induces change of **the Domains**
